DETAILED ACTION

1. The Specification, Drawings and Claims filed May 5, 2006 have not been entered. These items must be filed as part of an amendment, not as a petition. In light of the petition filed May 5, 2006, the finality of the Office action mailed March 31, 2006 is hereby withdrawn. Please find a new, non-final action below.

Drawings

2. The drawings were received on April 18, 2005. These drawings are not approved because they do not correspond to the description given in the Specification that was also received on April 18, 2005.

Specification

3. 35 U.S.C. 112, first paragraph, requires the specification to be written in "full, clear, concise, and exact terms." The specification is replete with terms which are not clear, concise and exact. The specification should be revised carefully in order to comply with 35 U.S.C. 112, first paragraph. The application is not written in proper idiomatic English and is replete with grammatical errors too numerous to mention specifically. Applicant should be careful not to introduce any new matter into the disclosure (i.e., matter which is not supported by the disclosure as originally filed).

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as

Art Unit: 3611

the invention. The claims appear to be merely a list of the definitions of words. They do not define an invention.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-3, as best understood, are rejected under 35 U.S.C. 102(b) as being anticipated by “1705 Queen Anne Crown”.

“1705 Queen Anne Crown” discloses a copy of a coin in which the denomination (i.e., one crown) is maintained, but the coin is identified as a reproduction (i.e., by featuring the word “copy”).

Response to Amendment

7. It is noted that this application names three inventors. It is necessary that all correspondence with the Office be signed by all three inventors.

Conclusion

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gary C. Hoge whose telephone number is (571) 272-6645. The examiner can normally be reached on 5-4-9.

If attempts to reach the examiner by telephone are unsuccessful, the examiner’s supervisor, Lesley Morris can be reached on (571) 272-6651. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
